

Grade Level(s) Students Enter in Fall	Course Name	Course Description	Primary Teacher	Week 1 June 16-19	Week 2 June 23-26	Week 3 July 7-10	Week 4 July 14-17	Week 5 July 21-24	Fee
4K	Jump into 4K	Students will be introduced to the 4K schedule, have a chance to interact with peers, and get a chance to explore the 4K classroom. 4K uses the curriculum Tools of the Mind. This class will show the students a glimpse into what the school year could look like. (4 hour class)	Alft, Dehne, Mueller	X	X	X	X	X	
1-8	Swimming Lessons	Students may sign up to take swimming lessons at the Pulaski Community Middle School (swimming levels 1-6). This is a 2-week course that runs Monday-Thursday each week. Each day, the students will have a lesson followed by free time in the pool. The students will be bussed to Pulaski following lunch and will return back to the Gillett Secondary School at 3:30 pm. Students who are not taking a morning summer school class during the weeks that swimming lessons are offered will need to have their own transportation to school and will need to be at school by 12:15 each day. Transportation home will need to be provided by parents each day. The fee covers lessons for both weeks. **Students must be 6 years old or older to participate. PLEASE FILL OUT AND RETURN THE SWIM LESSON REGISTRATION FORM WITH YOUR REGISTRATION PAPERWORK AND FEES.	Kraning	X	X				\$25
5K-2	Kitchen Kids	Do you want to learn how to make a variety of yummy recipes? In this class, you will be making a new tasty treat everyday! You will learn how to follow the steps of a recipe and how to cook using kitchen safety with different utensils and tools.	VanHulle	X	X				\$5
5K-2	Splish Splash	Who doesn't love water? In this class, we will read books about water, do experiments with water, and create art about water. We even have water-themed snacks! There may even be bubbles involved at some point. Are you ready? Come on in! The water's great!	Dantoin	X	X				\$2
5K-2	Building Together	From building with blocks, Legos, Tinker Toys, and more, to doing puzzles, to competing in building challenges, this course will keep you busy both physically and mentally. The course will also include a variety of team building activities.	Alft	X

3-5	Mythology	Are you interested in learning about ancient tales passed down through the generations? If so, this is the course for you! Throughout our week together, we will learn about popular myths from a variety of cultures old and new. Along with learning, we will also be doing activities to compliment the interesting tales we're going to discover.	Cisewski	X					
3-5	Curious about STEAM	Activities will show students different aspects of Science, Technology, Engineering, Art & Mathematics. Each day will focus on a different aspect of STEAM.	Kraning	X		X			\$5
3-5	Sprout Spot	Welcome to Sprout Spot, a hands-on summer school class where we dig deep into the world of plants and nature! If you love getting your hands dirty and want to learn more about gardening, this is the perfect class for you. In Sprout Spot, we will spend our days in the school garden and flower beds, where you will help maintain the beautiful plants and flowers that brighten our campus. You'll learn how to plant seeds, care for growing plants, and understand the importance of healthy soil and pollinators. We will focus on different types of flowers and plants, discovering their unique characteristics and how they contribute to our environment. But that's not all! We will also get creative with fun projects that tie into our gardening adventures. You will have the chance to create garden art, and even make your own bouquet! By the end of the class, you will not only have a green thumb but also a collection of projects that showcase your hard work and creativity. Join us for an exciting summer filled with learning, planting, and making new friends in the great outdoors. Let's grow together in Sprout Spot!	Richards	X	X				\$5
3-5	Disney Fanatics	Do you love Disney? Do you love projects and snacks? Do you want to spend 4 days watching classic Disney movies?! If so, this class is for you!	Kraning		X				\$4

5-12	Training For Middle and Distance Running	The goal of this class is to help you become a better runner. To accomplish this goal, we will include aspects of: warm-ups, cool downs, weight training, and increasing speed and strength by building on the mileage that you are currently capable of running. We will also include activities besides running to help increase your athletic stamina. This is not limited solely to cross-country or track athletes. All athletes are welcome to attend! By signing up for this class, you give the teacher permission to take your child off campus to participate in the programs being offered during the class. <i>(4 hour class)</i>	Soper	X	X	X	X	X	
6-12	Strength and Sports	This course is designed for ALL Gillett students grades 6-12, to improve their athletic performance. We will be using PLT4M (individualized lifting program) and playing fun & challenging games with the sports offered at Gillett MS & HS. (Cross Country sign up for Training for Middle Distance Running) <i>(4 hour class)</i>	A. Zeitler	X	X	X	X	X	
7-10	Junior Teacher	Do you like to help out in the classroom? Are you good at working with kids? This class is for students entering grades 7-10 who are under 16 years of age and would like to work with the teachers and help in some of the summer school classes. By signing up for this class, you give the teacher permission to take your child off campus to participate in the programs being offered during the class. <i>(4 hour class)</i>	Brown	X	X	X	X	X	
6-12	Vintage Video Games	Do you love video games? Have you ever wanted to play on the original Super Nintendo or the Nintendo 64 systems? Then this class is for you! You can play all the classics: Super Nintendo: Super Mario RPG, Super Mario All Stars, Donkey Kong Country, WWF Royal Rumble and more. N64: Super Smash Bros., Perfect Dark, Golden Eye, Legend of Zelda: Ocarina of Time, Mario Kart 64, and more. There will also be game-themed puzzles. <i>(4 hour class)</i>	Stankevitz	X	X

6-12	Adventures in Gaming	In this class, we will play various board games and story-based games. Board games will vary based on which ones you choose. Some are easier than others, but all are fun! Some students may prefer a role-playing Dungeons and Dragons campaign that fellow students designed for this summer program. All games provide a cooperative place for students to learn and problem-solve together.	Greene	X	X				
6-12	Lego Fun	Join Mrs. Davis for a week of building adventures with Lego. Participate in mini-challenges, learn and play Lego games, and design and build with friends! New this year we are adding STEAM lessons with Lego Spike and iPads. Everything will be awesome.	Davis	X		X			
6-12	Exploring Art	Dive into the vibrant world of art in this one week summer school course designed for students of all skill levels! "Exploration of Art" invites students to engage with various artistic mediums, including painting, drawing, and sculpture. Through hands-on projects and discussions, students will explore the history, theory, and cultural significance of art across different periods and styles.	Garrigan	X					
6-12	Therapeutic ART Journaling	Creative journaling using ART and words for therapy/mental health.	Driscoll		X	X			\$15
6-10	EMS/FIRE Bootcamp	Join our local EMS and Fire Department members to learn about basic firefighting skills, different types of apparatus and equipment, and how it applies to the EMS and Fire Department. Students will receive CPR and AED training, as well Stop the Bleed training. In addition, students will have the opportunity to learn about and use firefighting equipment and attend a field trip on Friday. Students will be off campus for various aspects of this course. Please note that students will need to provide their own transportation to and from school on Friday, July 18th.	Hicks				X		

Grade Level(s) Students Enter in Fall	Course Name	Course Description	Primary Teacher	Week 1 June 16-19	Week 2 June 23-26	Week 3 July 7-10	Week 4 July 14-17	Week 5 July 21-24	Fee
6-12	Tinkering 101	Come and make simple STEM related projects. Use the CNC plasma table, lazer engraver, CNC router, or simple shop tools to make yard ornaments or larger projects. We could also visit local manufacturing plants and simply walk there for field trips. Examples being Northport, L & N Metals, Composite Factory.(4 hour class)	O'Brien				X	X	\$5
6-12	FFA CDE Bootcamp	Gear up for FFA Career Development Event Contests! This week long course takes a look at a variety of FFA Contests students can compete in through FFA in the coming year. Students will get to participate in hands-on activities, try a few new foods, and travel off campus for tours. Horse Evaluation, Dairy Cattle Evaluation, and Milk Quality and Products Evaluation are just a few of the contests we will explore!	Timm				X		\$10
6-12	Fishing Rod Building	Here fishy fishy! In this class, students will learn about the fish of Wisconsin as well as create their one of a kind CUSTOM fishing rod from Mudhole Rods.	Timm					X	\$30
